

Smoler Proteomic Center Industrial companies price list-2016

Sample preparation

- ***Protein Extraction:** 200 ₪ per sample
- ***1D- gel electrophoresis:** 400 ₪ per gel

Protein identification by Mass Spectrometry-

- ***Protein trypsinization and identification by mass spectrometry from a simple mixture / gel band, including 1-2hr chromatography gradient:** 720 ₪ - per sample

(This price does not include *de novo* sequencing).

10% Discount will be given for 20 samples and above.

- * **Protein trypsinization and identification by mass spectrometry from a complex mixture including 3-4hr chromatography gradient:** 1400 ₪ - per sample
- * **Analysis against additional data base:** an addition of 160 ₪

Quantitative Protein Analysis -

- * **Comparative quantitative analysis of 2 samples including 1D 3-4hr chromatography gradient, using SILAC or reductive dimethylation labeling** - 2800 ₪
- *Technical repeat - 1700 ₪ addition
- * **Comparative, quantitative, label- free analysis of a complex mixture including 1D 3-4hr chromatography gradient** - 1800 ₪
- * **Comparative, quantitative, label- free analysis of a simple mixture including 1D 1-2hr chromatography gradient** - 900 ₪
- * **Quantitative/qualitative analysis in additional software:**
20% of the original project value according to an updated price list

Modification analysis-

- * **N-Terminus labeling** - an addition of 200 ₪ per sample
- * **Phosphopeptide enrichment of simple mixture** - an addition of 300 ₪ per sample
- * **Specific modifications analysis** - 860 ₪
- * **Proteomic & Phosphoproteomic analysis of a mixture (without fractionation) including 1D 3-4hr chromatography gradient** - 4000 ₪

All prices refer to the use in one proteolytic enzyme per sample

All prices do not include V.A.T

Please contact our lab for any farther inquiry.

Regards,

Tamar Ziv Ph.D
