

Service	Price (₹)
Protein separation using SDS PAGE	510
Protein identification from SDS PAGE or from a simple mixture	790
Modification analysis from a simple mixture	985
Protein identification from a whole lysate	1485
Interactome analysis	790
Label- free comparative Proteomics from whole lysate including statistical analysis	1740
Label- free Proteomics from a fraction or pull down experiment - including statistical analysis	1040
SILAC Proteomics (2 samples) - from a fraction or pull down experiment	1440
SILAC Proteomics (2 samples) - whole lysate	2070
Proteomics and Phosphoproteome analysis of labeled samples from whole lysate (2 samples mix)	4420
Proteomics and Ubiquitinome analysis of labeled samples from whole lysate (2 samples)	4420
N-terminus labeling and identification	1020
Protein Production	225
Official report	150/500
Proteomics and Phosphoproteome analysis of a simple mixture	1690
Reanalysis	160
Depletion 2 proteins	450
Depletion 14 proteins	550
Depletion BSA	360
Sample preparation using cut-off method or methanol treatment TCA acetone	270
Desalting	180
Protein dimethylation	225

Phosphoenrichment	225
